Software Developer

Skills

Python

Django

JavaScript

HTML/CSS

REST API

SQL

GIT

Summary

Proactive self-taught developer with analytical, problem solving, and leadership skills. Aiming to leverage my coding skills to successfully fill the Software Developer role at your company. Frequently praised as hard-working and self-driven by my peers, I can be relied upon to help your company achieve its goals.

Experience

Volunteer Job-search

 [Demo](#)

 [Code](#)

Django website that allows non-profits to post projects. Volunteers browse through the listings and can volunteer for projects.

Dynamic, with custom user model. Uses an api to get addresses. Search-able by category and keyword. Utilizes smtp forwarder to send emails.

Limited Access Platform

 [Demo](#)

 [Code](#)

Invite-only website for use with sensitive information, such as internal company procedures, etc.

Dynamic, custom user model that requires invite code to sign up(these can be added via the admin). Also utilizes smtp forwarder to send emails.

Inventory Program

 [Code](#)

Desktop application to automate asset tracking. Takes in bar-codes and places in correct slot in spreadsheet used to track assets at each location.

Uses Tkinter for GUI. Simplifies task, with speed and accuracy improving as well.
